Dallas Tex., Feb. 4.—The sixty-first annual meeting of the Texas Grand Lodge of Odd Fellows assembled in Turner Hall today. Counting grand lodge delegates, encampment members and Rebekahs, there are fully 1,000 visiting members present. Grand Master Anderson submitted his annual report at the afternoon session, and it created a sensation because of this portion of it:

created a sensation because of this portion of it:

"The money paid into the subordinate lodges during the last year amounted to \$134.391.46. Disbursements for sick benefits to brothers, relief of widowed families, educating orphans, burying brothers and wives, support of widows' and orphans home, and for special relief amounted to \$25,352.48; leaving a balance of \$160,025.80.07 to this balance there was used for per capita tax to grand lodge, for expenses and for other purposes, \$160,225.07. In other words, taking this one year's business, it cost \$160,225.07 to spend \$23,321.85. In visiting the sick, relieving the distressed, burying the dead and educating the orphan. Don't you think, brothers, this sounds a little like giving one dollar to the missionary fund and it taking \$6 cents to get it to the place you want to use it?"

Much of the time of the grand lodge session to-day was taken up in the consideration of various reports. The Rebekahs met in Odd Fellows' Hall. They have considered mostly routine business.

The encampment members also met for the disposition of the routine business.

The grand lodge conferred the Past Grand degree on 300 members; also gave the same 300 members were installed to-night. The meeting is to last four days.

Wells's Friends Receive Positive Information About Plans to Break Up the Independent

A development in the Democratic fight for the nomination for Mayor yesterday was the active participation of a certain class of Republicans with the forces that opposing the nomination of Rolls.

Those Democrats who are fighting his non ination appear to be doing so more to save their political lives than to promote the interests of any particular candidate. To accomplish this result it was said that Republicans had been called to the rescue and plan- made to carry primaries with their

Vast numbers of the people of St. Louis have based their calculations on the success of this great enterprise and what the majority of these people want is a good, straight and reliable business man at the head of the city government, while the Fair is actually on and the city is being put in order for it.

Such a man Mr. Wells is admitted to be and for this reason the Republicans will leave no stone unturned that may assist in bringing about his defeat for the nomination. Not only on the nomination for Mayor were there indications of Republican activity in Democratic affairs, but also in other nominations, especially those of candidates for the House of Delegates.

At Wells's headquarters in the Carleton building yesterday it was said that reports have been received from nearly all sections of the city, giving the information that Republicans are actively working against Wells.

—Street Railway Men's Union No. 131 met last night at Whalen's Hail, No. 3709 Easton avenue, and adopted a resolution piedging the support of the members to the Dwyer delegation in the Twenty-sixth Ward. The delegation favors the nomination of Wells for Mayor. A resolution was also adopted indersing the candidacy of James T. Brennan for the House of Delegates.

Local Political Sotes.

Owing to the fact that all the politicians in town were interested yesterday in straightening out the tangles in ward delegations at the Election Commissioners' office, there was very little gossip on the local appointments by the Governor.

The impression has now almost become a conviction that the Governor has made up his mind, and when it suits him he will announce the names of those whom he has selected, and not before.

The older Democrats have not changed their minds on the guesses made a week or more ago, which were that Messrs. H. R. Hawes, Doctor John H. Simon, Daniel range Delegations Favorable to Him.

MUST BE DONE IN THE OPEN.

Any Attempt to Run in City Hall Payrollers Will Cause a Disastrous Fight on the Mayor.

One of the chief worries of the Ziegenhein Republicans these days is the selection of the delegates who are to represent Ziegen-heinism in the convention and force the nomination of Judge Zachritz upon the voters of the party.

Everything depends upon the personnel of the delegations, and for weeks the Ziegenein managers have been scheming to relect men for these delegations who will remain loyal to Ziegenhein under the most adverse conditions, and who, at the same time, will not be of a personality sufficientedious to the opposition to provoke a fight and the placing of an opposing delegation in the field. The Ziegenhein managers realize that the

entiment among the Republicans in North and South St. Louis is unalterably opposed to Ziegenheinism, and that any attempt on the part of the Mayor's friends to pack the O'Connell Tracy and T. R. Ballard would be the winners. They say that these gentlemen represent every interest in the party—Hawes the young Democracy, Simon the German element, Ballard the Merchants' Exchange and Tracy the independent vote of the city.

A man who had been in Jefferson City for some days on legislative business and who saw the Governor frequently said yearlerday:

"I think I can safely say that the Governor has not taken anybody into his confidence and will not on the matter of his appointments, but I believe that he has about made up his mind on the Police. Commissioners, and they will be entirely satisfactory to the sreat majority of the party. Of course, it would be impossible for him to please everybody. My opinion is that he will make no appointments until after the primaries and convention on February 12. This would be wise politics, in my opinion, as it would keep Mr. Dockery out of the local fight, which naturally he wants to do. From what I heard and saw, I think there is no doubt the appointments will not be announced until the local fight is finished in the convention." delegations with men known to be favorable to his schemes, will result in a bitter fight at the primaries, and develop a friction in the convention fatal to his plans. The enemies of Ziegenhein, including the Good Government League, the St. Louis Republican Club, and the conservative voters of the party outside those organizations, have served notice upon the City Central Committee that the selection of delegations in secret caucus or the placing of any City Hall employe upon the delegations, will be the signal for either the filing of opposing delegations at the primaries, or the placing of an independent ticket in the field at the general election. "No snap judgment at the primaries," is the warning in general terms served upon the committee, and the "machine men" realize that this is no idle warning.

One Scheme That Failed.

Ziegenhein's followers in the Twenty-fourth Ward, it is said, attempted to steal a march on the opposition in that ward in the selection of a delegation, but were circumvented and abandoned the attempt. Fred Smith, Chief Deputy Marshal, W. H. Blake, Central Committeemen.

Fred Smith, Chief Deputy Marshal, Blake, Central Committeemen, and Albert Griffin, of the Collector's office, are the men charged with engineering the job. They are anxious to boost Wenneker's They are anxious to boost Wenneker's chances for the nomination for Collector, and, as Wenneker is said to be a Ziegenheim supporter, a delegation selected in Wenneker's interest would also represent Ziegenheim's interest in the convention. Last Tuesday they decided, at a conference, to call a meeting of the precinct committeemen to select the delegations for the ward. The meeting was to have been held last night. Elmer Lacey was instructed with the work of mailing the notices of the meeting to the committeemen, but for some reason he failed to mail them, until Saturday noon. The opposition got wind of what was contemplated, and the leaders notified Messrs. Griffin, Blake and Smith that if any attempt was made to select a delegation at a caucus to which the general public was not invited, an opposing delegation would be filed. As the opposition is sufficiently strong in the ward to make the contest an exceedingly close one, if not to defeat the Ziegenheim delegation, the Mayor's friends concluded to abandon their original purpose, and the meeting was called off.

Washington, Feb. 4.—The sundry civil appropriation bill, one of the most important and most general supply bills of the Government, was completed to-day by the House Committee on Appropriations. The bill appropriates \$5,700.084, which is \$10,859,-187 less than the estimates, and \$5,743,221 less than the bill for the current fiscal Year.

The items for river and harbor work, now The items for river and narbor work, now in progresse under contract, aggregate 48,-540,623, or about half the sum appropriated last year. The debt of Hawali assumed on the annexation of the islands is provided for, amounting to \$2.447,535. For public buildings now in course of construction in various cities, \$6,746,625 is appropriated. Following are the most important provisions which are not permanent annual appropriations:

not to defeat the Ziegenhein delegation, the Mayor's friends concluded to abandon their original purpose, and the meeting was called off.

Ziegenhein's friends in the Ci'y Committee, realize that their opponents are on the aiert, and that a great deal of diplomacy is necessary to prevent a nasty fight at the primaries and a possible independent Republican ticket at the election.

Committeeman Hahn, who was suspected of making ready to select a delegation in the Eighteenth Ward, by private caucus, has abandoned the idea, and now announces that delegates will be selected at a public mass meeting.

Filley is a Factor.

The Filleyites, confident of their strength, are placidly awaiting the call for the primaries to be issued by the City Committee, probably at the meeting next Thursday. Upon the official call will depend whether the Filleyites will file delegations for the primaries. If the terms of the call are favorable to the mass of voters of the party Filley will keep his hands off. If, however, which is more than probable, the call vells a Ziegenhein scheme. Filley will very likely have a contesting delegation in every ward, and organize the anti-Ziegenhein voters for an assault upon the Mayor which can but result in the defeat of the machine, if not in the convention, then at the general election.

Field of the Mayor's Life.

The Mayor realizes that the coming fight in the convention will be the fight of his life, and he is preparing to take desperate to a handon the convention and dictate the namesure swords with him in the open. He is known to his friends are still making efforts to conciliate Filley, by offering to let him dictate two-thirds of the entire ticket, outside of the mayoralty nominee. Ziegenhein himself realizes that these efforts are fruitless, and is ready to defy Filley and measure swords with him in the open. He is known to his friends as a headstrong man, and he persistently refuses to accept the suggestions of his advisers to abandon the course he has mapped out to capture the convention 500: Hot Springs, Ark., \$39,000; Jopiin, Mo., \$25,000.

DELEGATIONS ARE STRAIGHTENED OUT,

List Filed for the Democratic Primaries.

Opposing Delegations in Twenty Fourth and Twenty-Fifth Wards Are Withdrawn-Goltermann Outwits Lemp.

The Election Commissioners were in ses sion all day yesterday, finally adjudicating the contests over delegations filed for the coming Democratic primaries.

There was any amount of sparring for po-sition on the part of all sides, and number ess political tricks were uncovered which had been put up, with a view of securing some advantage in the coming contest.

The Commissioners carefully scrutinized every delegation filed Friday last, and in every case where there was evidence that delegations were "dummies," they were thrown out. After the day's work had been completed and the judgment of the Board of Election Commissioners had been passed ipon all the questions before it for adjudication, the fogs that hung over the situation and obscured it to a certain extent, lifted and the lines of demarkation between the contending interests were clearly out

The situation, in brief, is: In every ward in the city straight Wells delegations are running; in twenty-seven of the twenty-eight wards Tinker delegations are in the field, while Noonan has delegations in six-Opposing Delegations Withdrawn.

In the Twenty-fifth and Twenty-fourth wards, in each of which two Wells delega-

wards, in each of which two Wells delegations had been filed, the differences between
the Wells supporters were harmonized and
Doc Reiden, the leader of the delegation in
the Twenty-fifth, and ex-Postmaster James
L. Carlisle, leader of delegation in the
Twenty-fourth, voluntarily withdrew the
delegations they had filed.

When Tom Barrett, who is leading the
Tinker forces, learned that every vestige
of friction among the Wells supporters had
been adjusted, he shook his head and remarked forcibly on the turn of affairs. It
evidently upset his calculations to see men,
whom he had hoped would fight each other
to the bitter end and thus defeat the Wells
delegations in their wards bury their hatenets and enter the same wigwam to smoke sts and enter the same wigwam to smok

ets and enter the same wigwam to smoke the pipe of peace.

The negro delegation from the Twentieth Ward entered the shades of eternal darkness by order of the Board of Commissionera. It was adjudicated a "phony" pure and simple, and such a laugh was raised over the fact that it was difficult to find anybody to-stand father to the move. Tom Ward of the Twentieth Ward has been kicking ever since the delegation was filed, and asserts that it is ridiculous to charge that he had anything to do with filing it.

Tom Barrett is fighting Ward in the Twentieth and is leading the Tinker campaign.

Golterman Outwits Lemp.

In the Ninth Ward Charite Lemp, who is supporting Tinker, tried to work a coup on the Noonanites of his ward, but was beautifully called by Guy Goltermann, who was looking out for Noonan.

Lemp had seen a number of the Noonan delegates in the ward, whose names were filed last Friday, and had secured their written withdrawal from the Noonan ticket. He held the names in his pocket until a few minutes before the ession of the board closed, when he presented them to the Commissioners. Had the game worked Noonan would have had to go into the primary with a bobtail delegation from the ward. Goltermann had heard of the withdrawal of some of his delegates and prepared for the emergency when it came. He found out exactly who had withdrawn, and when Lemp filed their names with the Commissioners he filled the vacancies with the names of other candidates, thus keeping the Noonan delegation complete in the ward.

Judge Noonan has judges in but three wards—the Third, Eighteenth and Nineteenth. George W. Aring of the Third is given credit with having engineered this move in his ward, Tom Hailithan in the Eighteenth Ward and James L. Haney in the Nineteenth.

Haney's brother, William F. Haney, is a delegate on the Noonan delegation. One of them wants to be Central Committeeman from the ward, and the other is interested in the House of Delegates man.

Talk of a Combine.

It was claimed yesterday that the Noonan and Tinker judges in these wards were in

from the ward, and the other is interested in the House of Delegates man.

Talk of a Combine.

It was claimed yesterday that the Noonan and Tinker judges in these wards were in full sympathy, and by working together it was hoped to beat the Wells gelegations in any way possible. The Wells people claimed to be onto the trick, and would be prepared to be onto the trick, and would be prepared to meet their opponents at every turn of the way. There were practically no complaints heard as to the manner in which the Election Board disposed of every question that was submitted to it. Judge McCaffery said that the object of the board had been to do absolute justice to all. Many dummy delegations had been thrown out, and they ought to have been. In all the wards where Noonan had delegations he got them. The same is true in the case of Tinker and Wells. Where Noonan asked for judges he got them. In those wards where he did not ask for judges, but had delegations, the judges and clerks were divided between the Wells and Tinker delegations, so in every ward of the city all parties who asked for representation received it.

Judge Noonan said last night: "I am highly gratified at the way I have been treated by Judge McCaffery of the board. Every case where I had any interest he has decided with great satisfaction to me, and I have absolutely nothing but praise for his conduct. He has been eminently fair throughout."

Burning and Scaly Humors with

Of all the remedies for cooling and cleansing the blood and circulating fluids of litching, burning, scaly humors, none approach, in specific action, the wonderful properties of CUTICURA RESOLVENT. It neutralizes and resolves away (hence its name, Resolvent) scrotulous, inherited, and other humors, which float in the blood, and which give rise to swellings of the glands, pains in the bones, and torturing, disfiguring cruptions of the skin and scalp, with loss of hair.

CUTICURA RESOLVENT extends its cooling, purifying influence by means of the pores to the surface of the skin, aliaying irritation, inflammation, liching, and burning, and soothing external humors, because of its power to neutralize HUMOR-GERMS which float in the blood and circulating fluids. It exerts a purifying influence upon the bowels, liver, and kidneys, thus removing a common cause of yellow, mothy, greasy skin, and more or less of pimples, blotches, and blackheads. Many forms of debility, for which no cause can be discovered, are due to the presence of humors in the blood, bones, and fluids CUTICURA RESOLVENT poasesses, in the highest degree, humor expelling properties, and at the same time acts as a gentle aperient, diuretic, and digestive. It promotes the general health, while insuring the expulsion of humors which manifest themselves in the obscure forms of rheumatism, gout, kidney pains, and liver troubles.

Mothers are assured of the absolute purity of CUTICURA RESOLVENT and its freedom from any ingredient that is in the least objectionable in action, taste or odor. It is therefore readily taken by children of all ages and conditions, and should be freely given on the first appearance of humors, whether simple, scrofulous, or hereditary. It is also a mother's remedy, regulating and strengthening the maternal functions, while purifying the system of ulcerative weaknesses and humors.

It is economy to take it on every occasion possible, while using warm baths of CUTICURA SOAP to cleanse the skin of crusts and scales and soften the thick
